## EXPERIENCE

**JUN, 2020 – MAY, 2021**

**WEB DEVELOPER** ART-TALENT

Together with my schoolmates, we made an app like Pinterest, trying to replicate the algorithms, methods and distribution of the website.

We use MVC as web development design and technologies such as html, CSS, JS, node JS, React, MySQL, etc.

The app was deployed on Heroku with user management and multimedia content.

## EDUCATION

**AUG 2022**

**PROGRAMMING TECHNICIAN,** CEC$_\gamma$T 9 "JUAN DE DIOS BATIZ"

I studied generalized programming at the Center for Scientific and Technological Studies number 9 of the National Polytechnic Institute.

In each semester the degree asked us for an integrating project of all the subjects studied. Creating the entire brand of the company, the identity and products that emerge from it, as well as its empowerment through branding and digital marketing were quite regular things in my education.

During this time, I identified what would be my main vocation, web development. Being able to create, manage and maintain web pages where the only limit is your imagination is one of the reasons for my passion and vocation.

**MAY 2021**

**WEB DEVELOPER,** GOOGLE

As part of the time that it was to go through a pandemic, in 2021 in search of expanding my knowledge, I took the following courses taught by Google in conjunction with the University of Alicante, Spain, in which I reinforced and learned new things about web development with the objective of final obtaining digital certificates.

- Curso de Introducción al Desarrollo Web: HTML y CSS (1/2)
- Curso de Introducción al Desarrollo Web: HTML y CSS (2/2)

**JUN 2022**

**WEB DEVELOPER,** UDEMY

I constantly take courses as part of my independent training. One of the platforms I use the most is UDEMY, of which the following courses stand out:

- CSS La Guía Completa - Flex box, CSS Grid, SASS +20 proyectos

- React - La Guía Completa: Hooks Context Redux MERN +15 Apps
- JavaScript Moderno Guía Definitiva Construye +20 Proyectos

- Collective property
- Always in continuous learning
- Stoic philosophy

- Good communication
- Assertive communication
- Team work

## ACTIVITIES

I like to spend quality time with family or friends, I am a calm person, so I also enjoy spending time alone with my hobbies, which are Soccer, illustration, videogames, collecting on a scale, listening to music and cooking.

I like to act as a leader when someone haven't the personality, although I am strict and disciplined, reasons to which I attribute my career advancement before my work teams.

something that I am undoubtedly passionate about is the constant improvement in what I do, I never stop learning new and useful things to be a better version of myself
